Maximize GCC Performance with Al-Powered Innovation by NuSummit

Transforming Global Captive Centers (GCCs) with AI Excellence

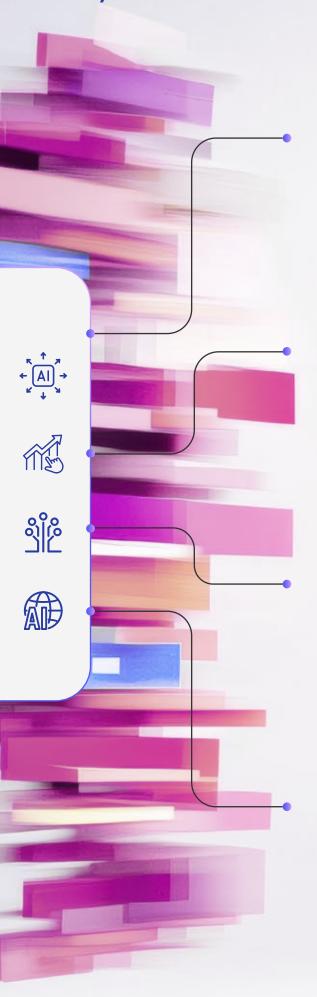

to drive tangible, outcome-driven transformation, leveraging artificial intelligence, cloud technologies, and automation.

Our Al-driven solutions ensure that your GCC operates with maximum agility, compliance, and operational efficiency, all while being supported 24/7 across global time zones.

Why Choose NuSummit for Al-Driven GCC Transformation?

Al-Centric Delivery Model

NuSummit's Al-centric approach integrates seamlessly with your GCC strategy, aligning Al solutions with your specific operational needs. We specialize in embedding Al technologies across all aspects of your business to maximize impact.

Our Build-Operate-Transform (BOT) model supports rapid setup, steady-state governance, and progressive transformation, enabling scalable growth in just 90-day cycles.

Outcome-Driven Al Execution

Our engagements are focused on delivering measurable Al-driven outcomes. We ensure efficiency by automating processes, enhancing decision-making with Al insights, and improving risk mitigation through Al-powered analytics.

Al accelerators, such as Checkmate, AutoDoc, and CodeReview, enable rapid automation and compliance, resulting in a potential 20% increase in the bottom line.

Comprehensive Al Capabilities

We offer a comprehensive range of Al services, spanning productivity optimization, advanced business decision-making, and cybersecurity. Our teams, equipped with Al, cloud, and automation skills, ensure seamless support across your GCC operations.

Digital tools, such as LegalGPT, NuBuilderAl, and ShieldGPT, extend capabilities across various functions.

Global, Scalable, Al-Driven Operations

NuSummit's delivery model ensures that AI services are continuously available across regions, providing uninterrupted performance and ensuring AI models are aligned with global governance frameworks.

Our global delivery model is enabled by our modular platform NuAgentOne, ensuring extensibility and scalability across time zones. Whether it's Al for operational efficiency or cybersecurity enhancement, we scale seamlessly to meet your changing requirements.

Business Benefits

Accelerated Time-to-Market

Leverage Al to speed up product development, process automation, and operational workflows, achieving faster market entry and greater agility.

Continuous Learning and Training

Our Al programs are designed to help your team stay ahead of the competition. We continually train and reskill to ensure your capabilities remain aligned with the latest Al trends and technologies.

Cost Efficiency

Through automation and optimization, we help reduce costs, boost throughput, and increase efficiency, demonstrating consistent gains of up to 20% in operational output.

Risk Mitigation

With proactive Al-enabled threat detection, vulnerability management, and cybersecurity automation, we ensure your systems are always secure and resilient.

AI-Powered GCC Services

We specialize in integrating artificial intelligence across various service lines to drive real, measurable impact within your GCC operations:

Al for Productivity and Business Decision Making

Implement AI solutions that automate business processes and provide predictive insights to improve decision-making and operational efficiency.

Intelligent Process Automation (IPA)

Leverage Al for agentic automation and digital workflows that streamline operations, increase efficiency, and reduce human error.

Al-Driven Data and Analytics

Utilize AI for modularizing data, enabling real-time analytics, and ensuring greater visibility into business performance.

Cloud-Native Al Solutions

From cloud provisioning to governance and infrastructure-as-code, our Al-driven cloud services ensure your infrastructure is optimized and scalable for future growth.

AI-Enhanced Cybersecurity

Implement Al-powered security solutions, including Identity and Access Management (IAM), Managed Detection and Response (MDR), and automated threat response to ensure robust security.

Why NuSummit

15+ Years of Proven Operations

With over 15 years of experience, NuSummit's solutions ensure uninterrupted operations, with a proven track record of 100% compliance and zero unplanned downtime.

Faster Onboarding

Our onboarding processes ensure quicker certification, deployment, and operational scaling.

Al-Enhanced Cybersecurity and Risk Management

Our Al-driven cybersecurity solutions proactively identify threats, ensuring your systems stay secure and compliant.

Scalable Al Solutions for All GCCs

Our Al models scale to meet the diverse needs of GCCs globally, supported by the NuAgentOne platform, which provides customizable, agile, and future-ready solutions.

Measurable Impact Across Industries

Al for Capital Markets and Fintech

Improve time-to-market and process efficiency through Al-driven automation and cloud-native solutions.

Al for Healthcare and Insurance

Leverage predictive Al for smarter decision-making, risk management, and enhanced customer experience.

Al in Engineering and Manufacturing

Implement Al-powered automation and optimization to drive greater operational efficiency and product innovation.

About NuSummit

NuSummit is a global technology leader in Al-led digital transformation, specializing in applications, data, analytics, cloud, and cybersecurity. With over 300 clients worldwide, including 22 Fortune 500 companies, NuSummit supports organizations across industries. Our core expertise lies in banking, insurance, and capital markets, where we offer specialized solutions for these sectors.

With over two decades of experience and 3,000+ professionals, we deliver Al-driven, end-to-end solutions that integrate advanced cloud infrastructure and cybersecurity. Certified to top industry standards and backed by a robust partner ecosystem of hyperscalers and niche innovators, NuSummit is a trusted partner for secure, impactful digital innovation.
