Enabling 23½ x 5 Trading for US Exchanges

From 23½ x 5 to 24 x 7 readiness.

The Signal

2% of U.S. equity trading already happens outside core market hours, and most firms expect overnight volumes to keep rising through 2028.

Why the Urgency Is Real

$17T
Foreign holdings of U.S. equities, up 97% since 2019

~1%
Share of daily notional trading currently happening overnight

~2x
Growth in overnight trading volume over the past two years

The Market Is Already Moving

Overnight trading has run in production since 2021. Now a cluster of major venues is moving within a single 18-month window.

Jun 2026
DTCC / NSCC moves to 24x5 clearing

Dec 2026
Nasdaq's 23/5 launch

Late 2026
NYSE Arca and Cboe EDGX extend hours

2027
London Stock Exchange targets extended hours
